

JD5121R

PET+Fiberglass Cloth Tape

Description:

JD5121R is made from composite glass fiber fabric coated with non-corrosive acrylic pressure-sensitive adhesive. It possesses puncture resistance, wear resistance, and resistance to edge tearing, high tensile strength, suitable for various heavy-duty insulation and fastening applications. It is resistant to solvent corrosion, aging, and exhibits excellent electrical insulating strength and insulation resistance properties.

Application:

Used for various coil/transformer and motor applications, high-temperature coil insulation wrapping, wire harness winding, and splicing.

Storage:

When stored under controlled humidity conditions (10°C to 27°C and relative humidity <75%), the shelf life of this product is 12 months from the date of manufacture.

Jiuding Tape

Technical Datasheet

Specification:

Backing: Polyester+Fiberglass Cloth

Adhesive: Acrylic

Thickness (μm) : 160

Break Strength(N/inch): 1000

Elongation (%) : 5

Adhesion to steel(90°N/inch): ≥10

Temperature Resistance: 155°C
